PROFILE

Computer Science and Mathematics graduate with a completed BSc in Physical Science from the University of Ruhuna and currently pursuing a Bachelor of Information Technology from the University of Colombo. Strong foundation in Computer Science, Mathematics, Applied Mathematics, Statistics, Database Systems, and Software Engineering, with hands-on experience developing data-driven, full-stack, and business management systems. Proficient in SQL, Python, Power BI, Excel, PostgreSQL, Java, Spring Boot, React, Docker, and AWS, with practical skills in data analysis, KPI reporting, dashboard development, database design, and cloud technologies. Seeking opportunities in Data Analytics, Business Intelligence, Software Engineering, or Cloud.

EDUCATION

BSc in Physical Science - University of Ruhuna, Sri Lanka 2023-2026

Major: Computer Science, Mathematics & Applied Mathematics | GPA: 3.22 / 4.00

- **Relevant Coursework:** Applied Statistics, Mathematical Statistics, Mathematical Modelling, Data Mining, Database Management Systems, Programming Techniques, Object-Oriented System Development, Software Engineering, Data Structures & Algorithms, Numerical Analysis, Linear Algebra, Calculus

Bachelor of Information Technology (External) - University of Colombo, Sri Lanka | GPA: 3.35 / 4.00 2025 - Present

GCE Advanced Level - Physical Science Stream | Dammissara National College, Nattandiya 2021

EXPERIENCE

Chief Cashier (Trainee) - People's Bank, Marawila 2022-2023

- Managed daily cash transactions and branch operations with accuracy, ensuring compliance with banking procedures while delivering efficient customer service.

PROJECTS

ExploreCeylon - AI-Powered Smart Tourism Platform (Final year Group Project) 2026

Java, Spring Boot, React, PostgreSQL, Python/FastAPI, Docker, AWS EC2, AWS S3, OSRM

- Developed a data-driven tourism platform with a 42-table PostgreSQL architecture, implementing SQL/JPQL analytics for revenue, bookings, budget variance, and operational KPI reporting.
- Engineered a multi-objective destination ranking and geospatial planning system using user preferences, ratings, popularity, seasonality, proximity, and OSRM road-distance data for feasible multi-day itinerary generation.
- Architected and deployed the multi-service application using Spring Boot, React, FastAPI, Docker Compose, AWS EC2, and AWS S3, with JWT security, WebSocket communication, and automated testing.

Smart Inventory Management System 2026

Java, Spring Boot, React, PostgreSQL, SQL, Apache POI, Recharts, Docker

- Implemented SQL-based inventory and financial analytics for real-time stock valuation, monthly sales/procurement trends, supplier spend, and safety-stock monitoring.
- Built interactive KPI dashboards and automated Excel reporting using Recharts and Apache POI to support inventory and procurement decision-making.
- Developed an enterprise-style backend with layered architecture, transactional stock controls, audit logging, role-based security, and validation.

Seneth Healing Foods - Commercial Web & Data Management System

2024

Real Client: Seneth Exports (Pvt) Ltd | PHP, MySQL, SQL, JavaScript, cPanel

- Developed and deployed a production data management system for a real commercial client, implementing MySQL-based product and customer inquiry management with SQL aggregation, operational KPIs, and CSV reporting.
- Built a secure administrative portal with 17-table relational database management, inquiry tracking, prepared SQL statements, and production cPanel deployment.

StayEase - Hotel & Room Booking Management System

2025

MERN Stack | MongoDB, Express.js, React, Node.js, Docker, Cloudinary, Swagger

- Developed a containerized MERN hotel management platform with MongoDB-based revenue and occupancy analytics, hotel/room/booking management, and operational dashboards.
- Implemented robust software engineering features including temporal booking validation, JWT authentication, role-based access control, Swagger/OpenAPI documentation, Cloudinary integration, and Docker Compose orchestration.

SKILLS

- **Data & Analytics:**
Data Analysis, SQL, Excel, Power BI, Tableau, Python, Pandas, MySQL, PostgreSQL, Data Modeling, Data Visualization, Applied Statistics
- **Data Engineering & Cloud:**
Databricks, AWS, Microsoft Azure, Docker, Git, GitHub
- **Software Engineering:**
Java, Spring Boot, JavaScript, React, PHP, REST APIs, Object-Oriented Programming
- **Soft Skills:**
Analytical Problem-Solving, Attention to Detail, Communication, Cross-Functional Teamwork, Adaptability, Time Management

DIPLOMA AND CERTIFICATIONS

- Diploma in English Language and Literature - Aquinas College of Higher 2022 - 2023
- Excel for Industry Readiness - INTECH, Faculty of Science, University of Ruhuna 2026
- Microsoft Power BI for Beginners - Simplilearn 2026
- Python for Beginners - University of Moratuwa 2026
- CloudPath Pro: From Zero to DevOps Professional - AWS, Docker, Terraform, CI/CD 2026
- React Native Full-Stack Developer Training - Coding Guru 2026

EXTRACURRICULAR ACTIVITIES

- Member: Ruhuna Hikers Club, Computer Science Society - University of Ruhuna 2023-2026
- Participant, "Road to Rush Coder 3.0" Hackathon and Capture the Flag (CTF): Introduction to Cybersecurity Workshop
University of Ruhuna, Dept. of Computer Science 2026
- 2nd Place, CodeRally 7.0 Hackathon - IEEE Computer Society SBC of IIT 2026
